Pre-Application for Stormwater Manufactured Treatment Device (MTD)

Direct questions about this stormwater manufactured treatment device (MTD) pre-application to Laura Jester, BCWMC Administrator, at 952-270-1990 or laura.jester@keystonewaters.com.

Complete by City Staff

This stormwater MTD pre-application is being submitted to the Bassett Creek Watershed Management Commission for review purposes by the City of __________________________ by __________________________

Stormwater MTD Requirements

MTDs may be used toward meeting BCWMC flexible treatment options as outlined in the Requirements for Improvements and Development Proposals. Project proposers must provide verification that the proposed stormwater MTDs have achieved General Use Level Designation (GULD) certification from the Washington Department of Ecology’s Technology Assessment Protocol – Ecology (TAPE) program. The project proposer may then apply 50% TP and 80% TSS removals for stormwater MTDs, as long as the stormwater MTDs are designed in accordance with the manufacturer’s and TAPE’s recommendations and guidelines.

Use This Form to Seek Acceptance of Higher Pollutant Removal Efficiency

A project proposer may seek acceptance of a higher pollutant removal efficiency by submitting data from the TAPE program for review by the BCWMC. This request may be initiated early in the design process, in coordination with the city, by submitting this pre-application form. The project proposer must also submit a BCWMC Application Form for Development Proposals as set forth in the document Requirements for Improvements and Development Proposals for final review if the project moves forward.

Submittals

Enclosed is the following required information for review:

☐ $1,000 pre-application review fee for review of alternative BMPs

☐ General Use Level Designation (GULD) certification from the Washington Department of Ecology’s Technology Assessment Protocol – Ecology (TAPE) program

☐ Data from TAPE program GULD application runoff water quality plan and computations

☐ Draft project plans

☐ Draft water quality plan and computations

☐ MIDS calculator file, P8 model, WINSLAMM model, or BCWMC approved equal
