INDEPENDENT AUDITOR'S REPORT

Board of Commissioners
Bassett Creek Watershed Management Commission

We have audited the accompanying financial statements of the governmental activities and each major fund of the Bassett Creek Watershed Management Commission (the Commission) as of and for the year ended January 31, 2010, which collectively comprise the Commission's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Commission's management. Our responsibility is to express opinions on these financial statements based on our audit. The prior year partial comparative information presented has been derived from the Commission's financial statements for the year ended January 31, 2009, and in our report dated April 16, 2009, we expressed unqualified opinions on the respective financial statements of the governmental activities and each major fund.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Commission at January 31, 2010, and the respective changes in financial position thereof and the budgetary comparison for the General Fund for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The financial statements include prior year partial comparative information. Such information does not include all of the information required in a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Commission's financial statements for the year ended January 31, 2009, from which it was derived.

(continued)

In accordance with *Government Auditing Standards*, we have also issued our report dated May 26, 2010 on our consideration of the Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of this report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis (MD&A) is not a required part of the basic financial statements, but is supplementary information required by accounting principles generally accepted in the United States of America. The Commission has not presented the MD&A that accounting principles generally accepted in the United States of America has determined necessary to supplement, although not required to be a part of, the basic financial statements.

Malloy, Montague, Karsowski, Radasovich & Co., P. A.

May 26, 2010

BASSETT CREEK WATERSHED
MANAGEMENT COMMISSION

Notes to Basic Financial Statements
January 31, 2010

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

A. Organization

The Bassett Creek Watershed Management Commission (the Commission) is a joint venture of the cities of Crystal, Golden Valley, Medicine Lake, Minneapolis, Minnetonka, New Hope, Plymouth, Robbinsdale, and St. Louis Park, formed under the authority of Minnesota Statute § 471.59. The Commission's purpose is to provide for cooperative planning, usage, and improvement of the watershed drained by the nine member communities. It is governed by a board consisting of nine commissioners, one appointed by each member city. The accounting policies of the Commission conform to accounting principles generally accepted in the United States of America as applicable to governmental units.

B. Reporting Entity

A joint venture is a legal entity resulting from a contractual agreement that is owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain either an ongoing financial interest or an ongoing financial responsibility. The Commission, as described above, is considered a joint venture of the nine member cities, and is included as such in their financial statements.

As required by accounting principles generally accepted in the United States of America, these financial statements include the Commission (the primary government) and its component units. Component units are legally separate entities for which the primary government is financially accountable, or for which the exclusion of the component unit would render the financial statements of the primary government misleading. The criteria used to determine if the primary government is financially accountable for a component unit includes whether or not the primary government appoints the voting majority of the potential component unit's board, is able to impose its will on the potential component unit, is in a relationship of financial benefit or burden with the potential component unit, or is fiscally depended upon by the potential component unit. Based on these criteria, there are no component units required to be included in the Commission's financial statements.

C. Government-Wide Financial Statements

The government-wide financial statements (Statement of Net Assets and Statement of Activities) display information about the reporting government as a whole. These statements include all of the financial activities of the Commission. The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; 2) operating grants and contributions; and 3) capital grants and contributions. Other internally directed revenues are reported as general revenues.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Generally, the effect of interfund activity has been eliminated from the government-wide financial statements.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Commission applies restricted resources first when an expense is incurred for which both restricted and unrestricted resources are available.

D. Fund Financial Statement Presentation

The accounts of the Commission are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenue, and expenditures. The resources of the Commission are accounted for in two funds:

General Fund – The General Fund is the primary operating account of the Commission and is used to account for all financial resources except those required to be accounted for in another fund.

Improvement Capital Projects Fund – The Improvement Capital Projects Fund is used to account for resources set aside for the construction of improvements to the watershed. Its primary resources are a property tax levy and property tax credits and other aid paid by the state.

Separate fund financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of this fund present increases (revenue and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under this basis of accounting, transactions are recorded in the following manner:

1. **Revenue Recognition** – Revenue is recognized when it becomes measurable and available. “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the Commission considers revenues to be available if collected within 60 days after year-end. All significant revenue sources are considered susceptible to accrual.
2. **Recording of Expenditures** – Expenditures are generally recorded when a liability is incurred; however, expenditures are recorded as prepaid for approved disbursements or liabilities incurred in advance of the year in which the item is to be used.

E. Budget

A budget for the General Fund is adopted annually by the Commission’s Board of Commissioners on a modified accrual basis of accounting. Budgetary control is at the fund level. All appropriations lapse at year-end.

F. Investments

Investments are reported at fair value. Securities traded on national exchanges are valued at the last reported sales price.

G. Prepaids

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids. Prepaids are recorded as expenditures/expenses at the time of consumption.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Capital Assets

The Commission has no capital assets. The Improvement Capital Projects Fund is used to construct holding ponds and other improvements to the drainage system within the watershed district. The improvements are to land belonging to the Commission's member communities, and are not capitalized by the Commission.

I. Property Taxes

Property tax levies are set by the Commission in December, and are certified to Hennepin County for collection in the following year. In Minnesota, counties act as collection agents for all property taxes. The county spreads all levies over taxable property. Such taxes become a lien on January 1 and are recorded as receivables by the Commission on that date. Property taxes may be paid by taxpayers in two equal installments on May 15 and October 15. The county provides tax settlements to all taxing districts several times a year. Taxes which remain unpaid at December 31 are classified as delinquent taxes receivable, and are offset by deferred revenue on the governmental funds financial statements. A portion of the property taxes levied is paid by the state of Minnesota through various tax credits, which are included in state aid revenue in the financial statements.

J. Risk Management

The Commission is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; error and omissions; and natural disasters. The Commission participates in the League of Minnesota Cities Insurance Trust (LMCIT), a public entity risk pool for its general property, casualty, and other miscellaneous insurance coverages. LMCIT operates as a common risk management and insurance program for a large number of cities in Minnesota. The Commission pays an annual premium to LMCIT for insurance coverage. The LMCIT agreement provides that the trust will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of certain limits. Settled claims have not exceeded this commercial coverage in any of the past three years. There were no significant reductions in insurance coverage during the year ended January 31, 2010.

K. Net Assets and Fund Balances

Net assets represent the difference between assets and liabilities in the government-wide financial statements. Net assets are reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation, or are legally restricted by outside parties for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

NOTE 2 – DEPOSITS AND INVESTMENTS

A. Components of Cash and Investments

Cash and investments at year-end consist of the following:

Deposits	\$	20,810
Investments		<u>4,134,286</u>
Total cash and investments	\$	<u><u>4,155,096</u></u>

B. Deposits

In accordance with applicable Minnesota Statutes, the Commission maintains deposits at depository banks authorized by its Board of Commissioners, including checking and savings accounts.

The following is considered the most significant risk associated with deposits:

Custodial Credit Risk – In the case of deposits, this is the risk that in the event of a bank failure, the Commission's Deposits may be lost.

Minnesota Statutes require that all deposits be protected by federal deposit insurance, corporate surety bonds, or collateral. The market value of collateral pledged must equal 110 percent of the deposits not covered by federal deposit insurance or corporate surety bonds. Authorized collateral includes treasury bills, notes, and bonds; issues of U.S. government agencies; general obligations rated "A" or better; revenue obligations rated "AA" or better; irrevocable standard letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota Statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral. The Commission has no additional deposit policies addressing custodial credit risk.

At year-end, the carrying amount of the Commission's deposits was \$20,810 and the balance on the bank records was \$21,410. At January 31, 2010, deposits were fully covered by federal depository insurance or by collateral held by the Commission's agent in the Commission's name.

C. Investments

The Commission has the following investments at year-end:

Investment Type	Credit Risk		Interest Risk – Maturity in Years		Total
	Rating	Agency	Less Than 1	1 to 5	
U.S. agencies	AAA	S&P	\$ 515,859	\$ 500,000	\$ 1,015,859
Repurchase agreement (U.S. agency underlying security)	AAA	S&P	\$ 3,118,427	\$ –	<u>3,118,427</u>
Total investments					<u><u>\$ 4,134,286</u></u>

NOTE 2 – DEPOSITS AND INVESTMENTS (CONTINUED)

Investments are subject to various risks, the following of which are considered the most significant:

Custodial Credit Risk – For investments, this is the risk that in the event of a failure of the counterparty to an investment transaction (typically a broker-dealer) the Commission would not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Commission does not have a formal investment policy addressing this risk, but typically limits its exposure by purchasing insured or registered investments, or by controlling who holds the securities.

Credit Risk – This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Minnesota Statutes limit the Commission’s investments to direct obligations or obligations guaranteed by the United States or its agencies; shares of investment companies registered under the Federal Investment Company Act of 1940 that receive the highest credit rating, are rated in one of the two highest rating categories by a statistical rating agency, and all of the investments have a final maturity of 13 months or less; general obligations rated “A” or better; revenue obligations rated “AA” or better; general obligations of the Minnesota Housing Finance Agency rated “A” or better; bankers’ acceptances of United States banks eligible for purchase by the Federal Reserve System; commercial paper issued by United States corporations or their Canadian subsidiaries, rated of the highest quality category by at least two nationally recognized rating agencies, and maturing in 270 days or less; Guaranteed Investment Contracts guaranteed by a United States commercial bank, domestic branch of a foreign bank, or a United States insurance company, and with a credit quality in one of the top two highest categories; repurchase or reverse purchase agreements and securities lending agreements with financial institutions qualified as a “depository” by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000; a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York; or certain Minnesota securities broker-dealers. The Commission’s investment policies do not further address credit risk.

Concentration Risk – This is the risk associated with investing a significant portion of the Commission’s investment (considered 5 percent or more) in the securities of a single issuer, excluding U.S. guaranteed investments (such as treasuries), investment pools, and mutual funds. The Commission’s investment policies do not limit the concentration of investments. At January 31, 2010, the Commission’s portfolio includes the following percentages of specific issuers:

U.S. agencies	
Federal Home Loan Mortgage	12.5%
Federal National Mortgage Association	12.1%
Repurchase Agreement – Wells Fargo	75.4%

Interest Rate Risk – This is the risk of potential variability in the fair value of fixed rate investments resulting from changes in interest rates (the longer the period for which an interest rate is fixed, the greater the risk). The Commission does not have an investment policy limiting the duration of investments.

NOTE 3 – TRANSFERS

The Commission transferred \$60,000 from the General Fund to the Improvement Capital Projects Fund to finance certain improvement projects. Interfund transfers are reported in the fund financial statements, but are eliminated in the government-wide financial statements.

NOTE 4 – RELATED PARTY TRANSACTIONS

The nine member cities support the Commission through annual contributions, which are computed using a formula based on the net tax capacity of all property within the watershed and the total area of each member city within the watershed as compared to the total area within the watershed. Contributions are assessed on a fiscal year basis. Contributions received in advance of the year to which they pertain are reported as unearned revenue in the year received.

Member contributions, unearned revenue, and permit revenue for the year ended January 31, 2010 were as follows:

	<u>Contributions</u>	<u>Unearned Revenue</u>	<u>Permit Revenue</u>
Crystal	\$ 24,067	\$ 22,131	\$ –
Golden Valley	112,052	103,256	–
Medicine Lake	3,298	–	–
Minneapolis	33,246	–	–
Minnetonka	23,031	21,510	–
New Hope	24,445	22,605	–
Plymouth	205,093	–	2,000
Robbinsdale	8,077	–	3,000
St. Louis Park	16,565	–	–
	<u>\$ 449,874</u>	<u>\$ 169,502</u>	<u>\$ 5,000</u>

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Board of Commissioners
Bassett Creek Watershed Management Commission

We have audited the financial statements of the governmental activities and each major fund of the Bassett Creek Watershed Management Commission (the Commission) as of and for the year ended January 31, 2010, which collectively comprise the Commission's basic financial statements, and have issued our report thereon dated May 26, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Commission's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Commission's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

(continued)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Commission's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of Commissioners and management of the Commission, its member cities, and the state of Minnesota and is not intended to be, and should not be, used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE
WITH MINNESOTA STATE LAWS AND REGULATIONS

Board of Commissioners
Bassett Creek Watershed Management Commission

We have audited the financial statements of the governmental activities and each major fund of the Bassett Creek Watershed Management Commission (the Commission) as of and for the year ended January 31, 2010, which collectively comprise the Commission's basic financial statements, and have issued our report thereon dated May 26, 2010.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the provisions of the *Minnesota Legal Compliance Audit Guide for Local Governments*, promulgated by the Office of the State Auditor pursuant to Minnesota Statute § 6.65. Accordingly, the audit included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

The *Minnesota Legal Compliance Audit Guide for Local Governments* covers seven main categories of compliance to be tested: contracting and bidding; deposits and investments; conflicts of interest; public indebtedness; claims and disbursements; miscellaneous provisions and tax increment financing. Our study included all of the applicable listed categories.

The results of our tests indicate that, for the items tested, the Commission complied with the material terms and conditions of applicable legal provisions.

This report is intended solely for the information and use of the Board of Commissioners and management of the Commission, its member cities, and the state of Minnesota and is not intended to be, and should not be, used by anyone other than these specified parties.
