BASSETT CREEK WATERSHED MANAGEMENT COMMISSION (“BCWMC”) DATA PRACTICES PROCEDURES

I. Introduction.

These procedures are adopted to comply with the requirements of the Minnesota Data Practices Act (the “Act”), specifically Minnesota Statutes Sections 13.025, 13.03, subdivision 2 and 13.05 subdivision 5.

II. Responsible Authority and Data Practices Compliance Official.

The person who is the responsible authority and the data practices compliance official for compliance with the Act is the Administrator. The name and contact information for the responsible authority and data practices compliance official are provided in Exhibit 1.

III. General Overview of the Act.

The Act regulates the handling of all government data that are created, collected, received, or released by a state entity, political subdivision, or statewide system, no matter what form the data are in, or how the data are stored or used.

The Act establishes a system of data classifications that defines, in general terms, who is legally authorized to access government data. The classification system is constructed from the definitions provided in Minnesota Statutes Section 13.02. A table that summarizes the classifications is attached as Exhibit 2.

IV. Access to Public Data.

All information maintained by BCWMC is public unless there is a specific statutory designation that gives it a different classification.

A. People Entitled to Access. Any person has the right to inspect and copy public data. The person also has the right to have an explanation of the meaning of the data. The person does not need to state his or her name or give the reason for the request, unless a statute specifically authorizes BCWMC to request such information. BCWMC may ask a person to provide identifying or clarifying information for the sole purpose of facilitating access to the data. Examples of when identifying information may be requested include, but are not limited to, obtaining a mailing address when the person has requested that copies be mailed or requesting identification when copies have been paid for by check.

B. Form of Request. The request for public data may be verbal or written. The responsible authority may require a verbal request to be made in writing, whenever a written request will assist the responsible authority in performing his or her duties.

C. Time Limits.

- **Requests.** Requests will be received and processed only during normal business hours.
- **Response to Members of the Public.** If a request is made by a member of the public and access or copies cannot be made at the time of the request, copies will be supplied within 10 working days after receiving the request, if feasible. If the copies cannot be prepared within 10 working days, the responsible authority will notify the requester of the anticipated time schedule and the reasons for the delay.
- **Response to Data Subject.** If the request is made by the data subject, the response must be immediate, if possible, or within 10 working days if an immediate response is not possible.

D. Form of Copies. Where public data is maintained in a computer storage medium, the responsible authority must provide copies of the public data in electronic form, upon request, if a copy can reasonably be made in that form. The responsible authority is not required to provide the data in an electronic format or program that is different from the format or program in which the responsible authority maintains the data. The responsible authority may charge a fee for the actual cost of providing the copy.

E. Fees.

- **No Fees Charged.** No fee may be charged for merely inspecting data. An inspection of data includes instances where the responsible authority prints copies of data, when the only method of providing for inspection is to print a copy. The responsible authority may, but is not required to, waive the actual costs associated with responding to a request for the electronic transmittal of less than 100 pages of data if the data is readily available in an electronic format. When copies are requested and a fee is charged for copies, no fee may be charged for time spent separating public from not public data.
- **Fees Charged.** Fees may be charged only if the requesting person asks for a copy or electronic transmittal of the data. Fees will be charged according to BCWMC's standard copying policy, attached as Exhibit 3.

The responsible authority may charge an additional fee if the copies have commercial value and are a substantial and discrete portion of a formula, compilation, program, process, or system developed with significant expenditure of public funds. This additional fee must relate to the actual development costs of the information. The responsible authority may also charge a fee for remote access to data where the data or the access is enhanced at the request of the person seeking access.

V. Access to Data on Individuals.

Information about individual people is classified by law as public, private, or confidential. A list of the private and confidential information maintained by BCWMC is contained in Appendix A. The form used to collect private and confidential information is contained in Exhibit 8.

A. People Entitled to Access.

- Public information about an individual may be shown or given to anyone for any reason.
- Private information about an individual may be shown or given to:
 - The individual data subject (as limited by an applicable statute or federal law), but BCWMC is not obligated to provide access to the individual data subject more frequently than only once every six months, unless a dispute or legal action pursuant to the Act is pending or unless additional data on the individual has been collected or created.
 - A person or entity that has been given access by the express written consent of the individual data subject. This consent must be on the form attached as Exhibit 4, or on a reasonably similar form.
 - Entities and agencies as determined by the responsible authority that are authorized by statute, including Minnesota Statutes Section 13.05, subdivision 4, or federal law, to gain access to that specific data.
 - The BCWMC Administrator, BCWMC Commissioners, Alternate Commissioners, and outside agents under contract with BCWMC (e.g., insurance adjusters, engineers or attorneys) whose work assignments reasonably require access. The responsible authority is authorized to determine whose work assignments or responsibilities require access to data.
- Confidential information may not be given to the public or the individual subject of the data, but may be shown or given to:
 - People who are authorized access by statute, including Minnesota Statutes Section 13.05, or federal law to gain access to that specific data.
 - The BCWMC Administrator, BCWMC Commissioners, Alternate Commissioners, and outside agents under contract with BCWMC (e.g., insurance adjusters, engineers or attorneys) whose work assignments reasonably require access. The responsible

authority is authorized to determine whose work assignments or responsibilities require access to data.

B. Form of Request. Any individual may request verbally or in writing as to whether BCWMC has stored data about that individual and whether the data is classified as public, private, or confidential.

All requests to see or copy private or confidential information must be in writing. An Information Disclosure Request, attached as Exhibit 5, must be completed to document who requests and who receives this information. The responsible authority must complete the relevant portions of the form. The responsible authority may waive the use of this form if there is other documentation of the requesting party's identity, the information requested, and BCWMC's response.

C. Identification of Requesting Party. The responsible authority must verify the identity of the requesting party as a person entitled to access. Verification can be through personal knowledge, presentation of written identification, comparison of the data subject's signature on a consent form with the person's signature in BCWMC's records, or other reasonable means.

D. Time Limits.

- **Requests.** Requests will be received and processed only during normal business hours.
- **Response.** The response must be immediate, if possible, or within 10 working days, if an immediate response is not possible. If the request is made by someone other than the data subject and access or copies cannot be made at the time of the request, copies must be supplied as soon as reasonably possible.

E. Fees. Fees may be charged in accordance with BCWMC's Copy Charge Policy (Exhibit 3).

F. Summary Data. Summary data means statistical records and reports derived from data on individuals but that do not identify an individual by name or any other characteristic that could uniquely identify an individual. Summary data derived from private or confidential data is public.

In lieu of creating new data in the form of a report or other summary document, summary data may be prepared by "blacking out" personal identifiers, cutting out portions of the records that contain personal identifiers, programming computers to delete personal identifiers, or other reasonable means. If this method is feasible and the requestor consents, BCWMC will utilize this method to prepare summary data in lieu of creating new data in the form of a report or other summary document.

A request for summary data must be in writing and the requesting party must pay for the cost of preparation. The responsible authority must notify the requesting party about the estimated costs and collect those costs before preparing or supplying the summary data. This should be done within 10 days after receiving the request. If the summary data cannot be prepared within 10 days, the

responsible authority must notify the requester of the anticipated time schedule and the reasons for the delay.

Pursuant to Minnesota Statutes Section 13.05, subdivision 7, the responsible authority may ask an outside agency or person, including the person requesting the summary data, to prepare the summary data if (1) the specific purpose is given in writing, (2) the agency or person signs a nondisclosure agreement that meets the requirements of Minnesota Rules, Part 1205.0700, subpart 5, and (3) the responsible authority determines that access by the outside agency or person will not compromise the privacy of the private or confidential data. The responsible authority may use the form attached as Exhibit 6.

G. Juvenile Records. The following applies to private (not confidential) data about people under the age of 18.

- **Parental Access.** In addition to the people listed above who may have access to private data, a parent may have access to private information about a juvenile data subject. “Parent” means the parent or guardian of a juvenile data subject, or individual acting as a parent or guardian in the absence of a parent or guardian. The parent is presumed to have this right unless the responsible authority has been given evidence that there is a state law, court order, or other legally binding document that prohibits this right.
- **Notice to Juvenile.** Before requesting private data from juveniles, the responsible authority must notify the juveniles that they may request that the information not be given to their parent(s). This notice should be substantially in the form attached as Exhibit 7.
- **Denial of Parental Access.** The responsible authority may deny parental access to private data when the juvenile requests this denial and the responsible authority determines that withholding the data would be in the best interest of the juvenile. The request from the juvenile must be in writing stating the reasons for the request. In determining the best interest of the juvenile, the responsible authority will consider:
 - Whether the juvenile is of sufficient age and maturity to explain the reasons and understand the consequences of denying parental access,
 - Whether denying parental access may protect the juvenile from physical or emotional harm,
 - Whether there is reasonable grounds to support the juvenile’s reasons for denying parental access, and
 - Whether the data concerns medical, dental, or other health services provided under Minnesota Statutes Sections 144.341 to 144.347. If so, the data may be released only if failure to inform the parent would seriously jeopardize the health of the minor.

The responsible authority may also deny parental access without a request from the juvenile under any other state or federal statute that allows or requires denial of parental access and that provides standards for denying parental access.

VI. Denial of Access.

If the responsible authority determines that the law does not permit the requesting party to have access to the requested data, the responsible authority must inform the requesting party orally at the time of the request or in writing as soon after that as possible. The responsible authority must give the specific legal authority, including statutory section, temporary classification or specific provision of federal law upon which the determination is made for withholding the data. Upon request, the responsible authority must place an oral denial in writing and cite the specific statutory section, temporary classification or specific provision of federal law upon which the denial was based.

VII. Collection of Data on Individuals.

The collection and storage of information about individuals will be limited to that necessary for the administration and management of programs specifically authorized by the state legislature, BCWMC or the federal government.

➤ **Tennessee Warning: When Required**

When BCWMC requests an individual to provide private or confidential data about him/herself, BCWMC will give that individual a notice – sometimes called a Tennessee warning. The Tennessee warning is given at the time the data is collected. It must be given whenever all four of the following conditions are met:

- BCWMC requests data;
- The data is requested from an individual;
- The data requested is classified as private or confidential; and
- The data requested is about the individual from whom the data is being requested.

➤ **Tennessee Warning: When it is *Not* Required**

A Tennessee warning is not required to be given by a law enforcement officer who is investigating a crime. In addition, a Tennessee warning is not required if:

- The data subject is not an individual (e.g., the data subject is a corporation or partnership);

- The data subject offers information that has not been requested by BCWMC;
- The information requested from the individual is about someone else;
- BCWMC receives information about the subject from someone else; or
- The information requested from the subject is classified as public data.

➤ **Contents of a Tennessean Warning**

A Tennessean warning must inform the individual data subject of the following:

- The purpose and intended use of the requested data (why the data are requested and how BCWMC will use the data);
- Whether the individual may refuse or is legally required to supply the requested data;
- Any known consequences from supplying or refusing to supply the requested data; and
- The identity of other persons or entities authorized by state or federal law to receive the data.

A Tennessean warning may be on a separate form or may be incorporated into the form that requests the private or confidential data. See attached [Exhibit 8](#) for an example of a Tennessean warning.

Collection of Data on Individuals through the Use of BCWMC's Computer

When an individual gains access to government information or services through BCWMC's computer, BCWMC may create, collect, or maintain electronic access data or use its computer to install a cookie on an individual's computer. BCWMC must inform individuals gaining access to its computer of the creation, collection, or maintenance of electronic access data or BCWMC's use of cookies before requiring the individual to provide any data about the individual to BCWMC. As part of that notice, BCWMC must inform the individual how the data will be used and disseminated. Notwithstanding an individual's refusal to accept a cookie on its computer, BCWMC must allow the individual to gain access to data or information, transfer data or information, or use government services by means of its computer.

VIII. Accuracy and Currency of Data.

The responsible authority should periodically review forms used to collect data on individuals to delete items that are not necessary and to clarify items that may be ambiguous. All records must be disposed of according to BCWMC's records retention schedule.

IX. Challenge to Data Accuracy.

An individual who is the subject of public or private data may contest the accuracy or completeness of that data maintained by BCWMC of which he or she is the subject. "Accurate" means the data are reasonably correct and free from error. "Complete" means the data describe all of the subject's transactions with BCWMC in a reasonable way.

To challenge the accuracy or completeness of data, the individual must notify BCWMC's responsible authority in writing describing the nature of the disagreement. The statement should describe why or how the data are inaccurate or incomplete and should also state what the individual wants BCWMC to do to make the data accurate or complete. Within 30 days, the responsible authority must respond and either (1) correct the data found to be inaccurate or incomplete and attempt to notify past recipients of inaccurate or incomplete data, including recipients named by the individual, or (2) notify the individual that the authority believes the data to be correct. Data in dispute shall be disclosed only if the individual's statement of disagreement is included with the disclosed data. The responsible authority should provide the data subject with a written statement that informs the data subject of the right to appeal and should also provide a copy of Minnesota Rules Part 1205.1600.

An individual who is dissatisfied with the responsible authority's action may appeal to the Commissioner of the Minnesota Department of Administration, using the contested case procedures under Minnesota Statutes Chapter 14. The responsible authority will correct, complete or destroy any data if so ordered by the Commissioner.

X. Policy for Ensuring the Security of Not Public Data**A. Legal Requirement.**

The adoption of this Section by BCWMC satisfies the requirement in Minnesota Statutes Section 13.05, subdivision 5 to establish procedures ensuring appropriate access to not public data. BCWMC currently does not have any employees. In the event that BCWMC hires employees, it will incorporate employee access to not public data in BCWMC's Data Inventory (see [Appendix A](#)), in the individual employee's position description, or both. Also, in that event, BCWMC's policy will also limit access to not public data to employees whose work assignment reasonable requires access.

Please direct all questions regarding this Section to the responsible authority.

B. Data Inventory.

Under the requirement in Minnesota Statutes Section 13.025, subdivision 1, BCWMC has prepared a Data Inventory which identifies and describes all not public data on individuals maintained by BCWMC. In the event that it hires employees, BCWMC will modify its Data Inventory to represent the employees who have access to not public data in order to comply with the requirement set forth in Minnesota Statutes Section 13.05, subdivision 5.

C. Data Safeguards.

- Not public data will be stored by BCWMC in files or databases that are not readily accessible to individuals who do not have authorized access and will be secured during hours when the office is closed.
- Not public data must be kept only in the BCWMC office, except when necessary for BCWMC business.
- BCWMC will assign appropriate security roles to its staff and implement password protections for not public electronic data.
- In the event that BCWMC hires employees, only those BCWMC employees whose job responsibilities require them to have access will be allowed access to BCWMC files and records that contain not public data. In addition, BCWMC will ensure that employee position descriptions will contain provisions identifying any not public data accessible to the employee when a work assignment reasonably requires access. BCWMC will also ensure that if a BCWMC employee does not have a work assignment allowing access to the not public data, that the not public data are secure. BCWMC will also instruct its employees to:
 - Release or disclose not public data only to those persons, within and outside of BCWMC, who are authorized by law to have access to the data,
 - Not leave not public data where unauthorized individuals might see it,
 - Password protect their computers and lock their computers before leaving work stations,
 - Secure not public data within locked work spaces and in locked file cabinets, and
 - Shred not public documents before disposing of them.

- In the event that BCWMC hires employees and in the event of a temporary duty assigned to a BCWMC employee, the employee may access certain not public data for as long as the work is assigned to the employee.

D. Data Sharing with Authorized Entities or Individuals

- When a contract with an outside party requires access to not public data, the contracting party will be required to use and disseminate the information consistent with the Act. BCWMC must include in a written contract the language contained in Exhibit 9 or substantially similar language.
- The responsible authority and BCWMC's attorney may have access to all not public data maintained by BCWMC if necessary for specified duties. Any access to not public data will be strictly limited to the data necessary to complete the work assignment.
- State or federal law may authorize the sharing of not public data in specific circumstances. Not public data may be shared with another entity if a federal or state law allows it or mandates it. Individuals will have notice of any sharing in applicable Tennessee warnings or BCWMC will obtain the individual's informed consent. Any sharing of not public data will be strictly limited to the data necessary or required to comply with the applicable law.

E. Penalties for Unlawfully Accessing Not Public Data.

In the event that it hires employees, BCWMC will utilize the penalties for unlawful access by its employees to not public data as provided for in Minnesota Statutes Section 13.09, if necessary. Penalties include suspension, dismissal, or referring the matter to the appropriate prosecutorial authority who may pursue a criminal misdemeanor charge.
