	<p>approach agreed to: 1) get the JPA updated and keep the JPA update simple; 2) engage with cities to gain support for additional staff hours/higher operating budget; 3) build the plan with a tiered approach dependent on staffing and structure; 4) analyze organizational structure early in plan Implementation.</p> <p>There was concern from some that momentum for analyzing organizational structure will wane once new JPA is adopted. PSC members acknowledged that future structure will be further explored within the “organizational effectiveness” category in the coming months and a commission workshop would incorporate this item.</p> <p>Developed issue statements, measurable goals and possible implementation actions for:</p> <ul style="list-style-type: none"> <li>• Aquatic Invasive Species</li> <li>• Groundwater – Surface Water Interaction (partial)</li> </ul>
